Re: Second Request for Extension of Time to Respond
to First Request for Information -
Portland Harbor Superfund Site, Portland, Oregon
Our Ref. No. 2003/05084/0152/0153

Dear Ms. Yamamoto:

We have made substantial progress on gathering relevant information and have begun putting our response together. We are continuing to interview current and former employees relative to the Cargill sites we have identified within the investigation area. While we have made great progress, we have a ways to go to produce a comprehensible response. We expect that we can complete the response within the next 60 days. Therefore we are requesting an extension of an additional sixty (60) days, to October 14th, within which to respond.

We will provide you with a status report at September 15th. If you have any questions, please do not hesitate to contact me.

Sincerely,

Karen Farago
Sr. Environmental Paralegal
